Applicants' amendment and response filed May 21, 2009 have been received and entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5, 6 and 11-22 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 07-242547 A1, hereby known as Masahiko et al. of PTO-1449, of record, for reason of record as set forth in the previous Office action dated December 23, 2008 at pages 2-3 as applied to claims 5-10.

Applicants' remarks regarding the prior art, Masahiko et al., does not teach the active agent is used to treat severe diabetic retinopathy in mammal because the active agent is only used to treat simple diabetic retinopathy are not persuasive since the active agent, fidarestat, is known to diabetic retinopathy and severe diabetic retinopathy is just another stage or molecular target. Note the same active agent treatment practice to the same patient type as instantly claimed is set forth in the prior art. The instant applicants' measurement of a different molecular target is reasonably a new measurement of the practice of an invention already in the prior art and that applicants have not negated the factual basis for the rejection which is that the same active agent is being administered to the same patient in the cited prior art as instantly claimed and

Art Unit: 1614

that applicants' measurement of the molecular targeting does not distinguish the claimed practice over the prior art.

In other words, the claims of a new use, new function or unknown property which is inherently present in the prior art does not necessarily make the claim patentable (See In re Best, 562 F.2d, 1252, 1254, 195 USPQ 430, 433 (CCPA 1977)).

The rejection made under 35 USC 102(b) is adhered to.

Claims 5, 6 and 11-22 are not allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
